

A CASE4 CHANGE

A Project of
Awareness Cambodia
Rebuilding the Children of Cambodia

HOW IT WORKS

A **Case4Change** is all about giving your organisation the opportunity to help children in Cambodia get a 'fair go' at education by providing them with school backpacks filled with stationery.

For every \$15.00 your organisation donates, Awareness Cambodia will print your organisations logo on a backpack and fill it with school supplies.

In July our staff will distribute the backpacks and school supplies at rural Cambodian schools in Kompong Speu

OUR COMMITMENT TO YOUR ORGANISATION

- Awareness Cambodia (Perth office) will appoint a contact person to liaison with your organisation.
- Awareness Cambodia staff will be present when the backpacks and school supplies are distributed.
- Photos of the **Case4Change** distribution day will be forwarded to your organisation in September allowing your staff to see first-hand the difference that their donation has made.

BENEFITS

By purchasing backpacks and school supplies within Cambodia we are assisting the local economy. The beneficiaries of the school backpacks are students from poor rural Government schools. Awareness Cambodia has a working relationship with these schools providing English 2nd Language classes. By using this multi-layered education strategy we are ensuring that the **Case4Change** program will reach children most in need.

**For every \$15 fundraised your organisation is helping to empower
a Cambodian child!**

Who is Awareness Cambodia

Awareness Cambodia is an Australian not-for-profit overseas aid organisation. We work in partnership with communities to directly assist some of the poorest and most underprivileged in war-ravaged and impoverished Cambodia.

We work in the Kompong Speu community (the poorest province in Cambodia) providing **health services, education and childhood development programs.**

Awareness Cambodia's unique approach embraces education and health as a means of indigenous empowerment. Our team is dedicated to providing sustainable long-term programs which are designed to break the cycles of poverty, abuse, illiteracy and neglect in order to create a 'better future' with a sense of hope and opportunity.

Our successful programs and holistic approach to ending the slavery that poverty brings, is seeing a growing number of orphaned children taking up university degrees in fields such as civil engineering, design, architecture, accountancy, English literature, business and economics.

If there's one thing we've learnt, it's that ordinary people like us can make a difference. We invite and look forward to you joining our mission: building a better, brighter future for Cambodia and beyond.
